I. Overview and Project Requirements

Mid-Columbia Housing Authority (MCHA) is seeking proposals from developers interested in applying for up to seventy (70) Project Based Vouchers (PBV) to be used in multi-family affordable housing rental project(s) that serve low-income, very low-income and extremely low-income households in Hood River County or Wasco County Oregon. MCHA is looking for experienced developers capable of delivering high quality affordable housing. Successful proposals will demonstrate experience with the type, size, scale and complexity of housing proposed to be developed.

As a result of this RFP, awards may be funded to either a single or multiple projects depending on available resources. MCHA reserves the right as the result of our review to determine the best mix of resources for a proposed project.

Successful applications will demonstrate how their project can advance MCHA development goals. These include:

1. Increased opportunities for affordable housing
2. De-concentration of low-income housing
3. Development of housing that increases access to community services (e.g. social services, health care, transportation, youth programs, adult education & job training).
4. Increased units that would be available to households at or below 30% of Area Median Income (AMI).
5. Developments that add to the long-term financial sustainability of MCHA.
6. Developments that assist in redistribution of voucher concentration in Wasco County to Hood River County.
7. Increased number of one-bedroom units that provide supportive services.

II. Project Developer

MCHA is looking for developers with a demonstrated ability to successfully finance, construct and operate projects of comparable type, size, scale and complexity. Developers must demonstrate the ability to:

1. Deliver projects on time and within the forecasted budget
2. Work with the public sector in public/private real estate development projects
3. Take on a new project given the developer's other commitments
4. Successfully utilize Project Based Vouchers and comply with Fair Housing and all federal regulations
5. Implement a relocation plan, if applicable, per the necessary rules and regulations based on funding requirements
6. Operate the project in compliance with funding requirements throughout the period of affordability

All developers must be in good financial, legal and organizational standing.

III. Description of PBV Program

PBV Eligibility

Project-based vouchers (PBV) are an optional component of the Housing Choice Voucher (HCV) program that Public Housing Authorities may choose to implement. MCHA is accepting PBV proposals for up to seventy (70) PBVs that can meet the following minimum requirements:

1. Expand the affordable housing stock available to residents in MCHA's service area;
2. Serve families at or below 80% of the Area Median Income (AMI);
3. Increase the affordability of housing currently not affordable to households below 30% of AMI;
4. Demonstrate evidence of site control.

Through the PBV program, MCHA will enter into a housing assistance payment (HAP) contract with selected property owner(s) for an initial term of no less than one year and up to 20 years. The term of all PBV HAP contracts will be negotiated with the owner on a case-by-case basis

Any time before expiration of the HAP contract, MCHA may extend the term of the contract for an additional term of up to 15 years if MCHA determines an extension is appropriate to continue providing affordable housing for low-income families or to expand housing opportunities.

Housing assistance subsidies will be provided while eligible families occupy the rental housing units and the units meet other program standards. MCHA will maintain the waiting list and refer program participants to the project owner in order to fill vacant units. MCHA subsidy standards will determine the appropriate unit size for the family size and composition.

Certain types of housing units and/or developments are **not eligible** for PBV assistance [24 CFR 983.53] including:

- Shared housing;
- Units on the grounds of a penal, reformatory, medical, mental, or similar public or private institution;

- College or other school dormitories;
- Nursing homes or facilities providing continuous psychiatric, medical, nursing service, board and care, or intermediate care;
- Units that are owned or controlled by an educational institution or its affiliate and designed for occupancy by the students of the institution;
- Manufactured homes;
- Cooperative housing;
- Transitional housing;
- Owner-occupied housing units;
- Units occupied by an ineligible family at the time of proposal submission or prior to execution of the Housing Assistance Payment (HAP) contract.

Additionally, MCHA may not attach or pay PBV assistance to units in any of the following types of subsidized housing (24 CFR 983.54):

- A public housing unit;
- A unit subsidized with any other form of HCV Section 8 assistance;
- A unit subsidized with any governmental rent subsidy;
- A unit subsidized with any governmental subsidy that covers all or any part of the operating costs of the housing;
- A unit subsidized with Section 236 rental assistance payments (except that a PHA may attach assistance to a unit subsidized with Section 236 interest reduction payments);
- Section 202 project for non-elderly with disabilities;
- Section 811 project-based supportive housing for persons with disabilities;
- Section 202 supportive housing for the elderly;
- A Section 101 rent supplement project;
- A unit subsidized with any form of tenant-based rental assistance;
- A unit with any other duplicative federal, state, or local housing subsidy, as determined by HUD or MCHA in accordance with HUD requirements.

The number of PBV assisted units in the project cannot exceed the greater of 25 units or 25 percent of the total number of dwelling units in the project, except:

- units that are exclusively for elderly families,
- units that are for households eligible for supportive services available to all families receiving PBV assistance in the project (although the family is not required to accept or receive such services), and
- units where the project is located in a census tract with a poverty rate of 20 percent or less, as determined in the most recent American Community Survey Five-Year estimates. The cap is the greater of 25 units or 40 percent of the units in the project. HUD created a PBV lookup tool that establishes whether an address falls into a tract that has an average poverty level of 20 percent or less located at: <https://www.huduser.gov/portal/maps/hcv/home.html>

Site Selection Standards [24 CFR 983.57]

It is MCHA's goal to select sites for PBV housing that provide for deconcentrating poverty and expanding housing and economic opportunities. In complying with this goal MCHA will limit approval of sites for PBV housing in census tracts that have poverty concentrations of 20 percent or less.

MCHA will grant exceptions to the 20 percent standard where MCHA determines that the PBV assistance will complement other local redevelopment activities designed to deconcentrate poverty and expand housing and economic opportunities in census tracts with poverty concentrations greater than 20 percent, such as sites in:

- A census tract in which the proposed PBV development will be located in a HUD-designated Enterprise Zone, Economic Community, or Renewal Community;
- A census tract where the concentration of assisted units will be or has decreased as a result of public housing demolition and HOPE VI redevelopment;
- A census tract in which the proposed PBV development will be located is undergoing significant revitalization as a result of state, local, or federal dollars invested in the area;
- A census tract where new market rate units are being developed where such market rate units will positively impact the poverty rate in the area;
- A census tract where there has been an overall decline in the poverty rate within the past five years; or
- A census tract where there are meaningful opportunities for educational and economic advancement

A site for newly constructed housing must be consistent with MCHA's Administrative Plan. The plan is available on-line at <http://mid-columbiahousingauthority.org/about-us/admin-plan/> Section 21.0, PROJECT-BASING HOUSING VOUCHERS.

The PBV project must also be in compliance with the Conduct of Development Work [24 CFR 983.154].

Activities under the PBV program are subject to HUD environmental review regulations and may be subject to review under the national Environmental Policy Act by local authorities.

For properties with nine or more proposed PBV units, the owner, the owner's contractors, and subcontractors must pay Davis-Bacon wage rates to labors and mechanics.

Fair Housing

All Projects must comply fully with all federal, state and local nondiscrimination laws and rules and regulations governing fair housing and equal opportunity in housing and employment. MCHA is pledged to the letter and spirit of U.S. policy for the achievement of equal housing opportunity throughout the Nation. MCHA requires affirmative advertising and marketing in which there are no barriers to obtaining housing because of race, color, religion, sex (including gender, gender identity, sexual orientation, and sexual harassment), disability, familial status, and national origin. All projects must have completed and submitted to MCHA an Affirmative Fair Housing Marketing Plan (AFHMP) (HUD-935.2A) prior to award of PBVs.

Wait List

Preference will be given to projects that have screening criteria that allows qualified residents to be pulled off MCHA's master wait list for HCV Section 8 program. All current wait lists families

must be given the first opportunity to apply for available units and the wait list before all other families.

PBV Contract Rents

For each unit type and size, the proposed contract rent must be provided as well as a breakdown of the utilities to be paid by the tenant and by the owner.

MCHA’s goal is to provide as many families with vouchers as possible. Given the budget limitations of the program, MCHA must implement policies that control its HAP expenditures. It is expected that developers will build units that meet the 80% AMI affordability threshold and have set its rents accordingly.

The rent to owner including utility allowances must not exceed the lowest of:

- An amount determined by MCHA, not to exceed 110 percent of the applicable fair market rent (FMR) minus the applicable utility allowance;
- The reasonable rent; or
- The rent requested by the owner.

Current FMRs and Payment Standards (Effective October 1, 2021) are:

Hood River County		
Unit Size (# of Bedrooms)	FMR	Payment Standards
0	\$838	\$905
1	\$958	\$1,034
2	\$1,261	\$1,361
3	\$1,791	\$1,934
4	\$2,136	\$2,301
Wasco County		
Unit Size (# of Bedrooms)	FMR	Payment Standards
0	\$816	\$856
1	\$954	\$1,001
2	\$1,228	\$1,289
3	\$1,705	\$1,790
4	\$2,101	\$2,207

During the tenant’s lease, the owner may not terminate the lease without good cause. “Good cause” does not include a business or economic reason or desire to use the unit for an individual, family or non-residential rental purpose. Upon expiration of the lease the owner may renew the lease; refuse to renew the lease for good cause; or refuse to renew the lease without good cause.
